PINAR DEL RIO TAKEN

Cubans Capture a Stronghold of the Spaniards.

THE TOWN WAS DESTROYED.

There Was a Desperate Fight and Many Men on Both Sides Were Killed and Wounded—It Was the American Artillerymen Who Decided the Battle. Weyler Trying to Suppress the News.

NEW YORK, March 30.—A special cable dispatch to The Journal from Havana says:

Pinar del Rio has fallen. The stronghold of the Spanish army in the western part of the island was taken by the insurgents Saturday. There was a desperate fight, and many men on both sides are killed and wounded.

Only the meager news of the battle has been received in Havana, and the details can not at this moment be attained. What news has been received was sent to the captain general by the officer in charge of the garrison at Pinar del Rio, after his troops had been utterly routed and while the insurgents were applying the torch to the city.

At the palace absolutely nothing has been given out, and the most that can be obtained there is the confirmation of the story that there was a fight. The Spanish officials will not state the result of the battle, nor have they furnished the local papers with an official note of it. This in itself is sufficient to confirm the report of Spanish defeat, for the authorities never lose any time in giving out the complete details of victories for their side. The Cuban sympathizers have received information from the scene of battle. The report made to them states that General Antonio Maceo and Calixto Garcia were in command of the rebel forces.

The hot fighting was done by the American artillerymen, who came to Cuba on the Bermuda filibustering expedition for the express purpose of working the Hotchkiss and Gatling guns brought on the steamer.

Without the assistance of the Americans, Pinar del Rio would not have fallen. It was only their deadly fire sent into the town by the Gatling and Hotchkiss guns that saved the day for the insurgents.

Pinar del Rio is situated about two-thirds of the distance across the island at the north, and in the extreme western province. It was a city of some 20,000 inhabitants, and the Spanish had relied upon it to afford them a base for operations in Pinar del Rio during the rainy season.

The Spanish garrison consisted of 4,000 men, and the attacking force had fully 9,000 men besides the sharpshooters and other skilled men of war, who came on the Bermuda.

Following his usual policy, General Maceo did not hold the town. He simply destroyed it and then passed out to some other place.

Exactly where he is at present is not known. The Spanish troops in the province of Pinar del Rio are now without a refuge from the rains, malaria and yellow fever which sweep over that part of the island during the rainy season, and which are so fatal to those who are not acclimated.

It is predicted that if the war extends far into the rainy season that yellow fever will carry off the Spanish troops in groups.

The news of the fall of the city was brought into Havana by mounted couriers. They must have ridden for their lives to get here as they did, for the scene of action is close to 100 miles from this city.

SLEW MATABELES.

Explorer Selous Headed Volunteers in a Victorious Battle.

CAPE TOWN, March 30.—Dispatches received here from Bulawayo announce that Frederick C. Selous, the explorer, who left that town Friday at the head of a strong detachment of volunteers and police, has met and engaged the enemy, killing a large number. Five troopers were killed. The prompt action of the authorities has had a bad effect upon the rebellious Matabeles, who did not expect to be attacked for some time to come.

The Matabeles have burned a large store, about 40 miles from Bulawayo, and executed a medicine dance around the flames. The transport riders are abandoning their wagons in all directions, and are hurrying into the towns, where armed men are gathering for defense and for active operations against the rebels. Many fiendish murders have been reported, and the settlers are encamped in laagers, while awaiting to be rescued by the mounted police and volunteers. Others have placed their houses in a state of defense, and have determined to fight it out until assistance reaches them.

The gravity of the situation has not been exaggerated, although it is still hoped that the promptness of the authorities in commencing operations against the Matabeles may result in checking the spread of the rebellion.

Fears are entertained for the safety of a party of about 1,000 settlers, mainly women and children, who are in the laager, in the vicinity of which a strong force of Matabeles has been reported. The settlers have only sufficient provisions to last them a short time.

Another American Flag Burned.

BARCELONA, March 30.—This city had the anti-American demonstration yesterday which has been a regular feature

of the Sunday festivities for several weeks past. The throngs of promenaders who listened to the band concert displayed a lively enthusiasm when the band played patriotic airs and their patriotism took the form of publicly burning an American flag. No further disturbance, however, occurred.

LIQUOR DRANK UP BY FLAMES.

Pleasure Ridge Warehouse Destroyed by Fire and 26,000 Barrels Burned.

LOUISVILLE, March 30.—The big warehouse of the Pleasure Ridge Park Distillery company, located near Ridge Park, a station nine miles from Louisville, was destroyed by fire Saturday. It was the property of the Pleasure Ridge Park Distillery company of this city. B. Bornheim, president.

The burned warehouse was one of the largest in Kentucky. It was known as No. 3. Its capacity was 20,000 barrels and was erected in 1891.

Twenty-six thousand barrels of whiskey and Warehouses Nos. 3 and 1 were destroyed. The total loss is estimated at \$325,000 exclusive of the government tax. The damage to the plant is estimated at \$25,000. There is ample insurance on the distillery plant, cooper shop and warehouses, and it is estimated the whiskey was insured for 90 per cent of its value.

It had all or nearly all been sold to men in all parts of the country who placed the insurance themselves. It will be some time before the names of owners and the amount of the individual insurance liability can be obtained.

The government tax on 26,000 barrels, or 1,170,000 gallons, would be \$1,287,000. This is not due until the whiskey is withdrawn for consumption, or until the expiration of the year's bonded period. The owner is held liable for tax, but the government always remits it in cases of this kind.

Fowler was drunk, parading the streets with a rifle, which he used as a walking stick, and pointed it at the officer, when the latter shot him.

HORRIBLE BUTCHERY

Mysterious Murders by an Unknown Masked Man.

THE CRIME NEAR TALLMADGE, O.

Alvin M. Stone and His Wife Killed, Their Bodies Being Frightfully Mutilated and Their Hired Man and Two of Stone's Daughters Probably Fatally Injured. No Cause Known For the Deed.

AKRON, O., March 30.—At a late hour Saturday night a masked man entered the farmhouse of Alvin M. Stone, near Tallmadge, a few miles from this city, and in the brief space of half an hour committed a horrible butchery. When he took his departure Stone and his wife, both aged people, were lying dead in bed, horribly mutilated, and Ira Stillson, the hired man, and Emma Stone, the eldest of three daughters, were unconscious from blows dealt by the murderer.

The murderer entered the house by means of a ladder, which he raised to an upstairs window. He first passed through the room in which Hattie and Flora Stone were sleeping, without awakening them. Going quietly downstairs to the room in which Mr. and Mrs. Stone slept, he attacked them with a blunt weapon of some sort, hitting both upon the head. They were probably rendered unconscious, and possibly killed by the blows, but the fiend, not satisfied with that, proceeded to mutilate their bodies with a knife. He cut off one of Stone's ears, slashed him across the face, and stabbed him in the back. Then he laid Mrs. Stone's cheek open with the knife.

After this he proceeded to the room of Stillson upstairs. The hired man heard the intruder apparently, for he had risen, when he was dealt a stunning blow on the head. Next the murderer turned his attention to Emma Stone, who slept in a room by herself. When he entered her room she awoke. That awakened the two other girls who slept across the hall. Hattie Stone arose to go to her sister's assistance, but as she entered the latter's room she was felled to the floor by a blow on the head but fortunately was not rendered unconscious. Regaining her feet, she ran to her own room and locked the door. Throwing a bed quilt about her, she leaped from the window and ran through the rain and mud to the nearest neighbors, a quarter of a mile away.

After he had struck Hattie down, the murderer returned to Emma's room and struck her on the head, leaving her unconscious. Then he tried the door to the room in which Hattie had left her younger sister, Flora, when she jumped from the window. Finding the door locked, he battered it down. Finding only Flora in the room, he asked where the other girl was. When told that she had gone for help, he hastily left the house and made his escape.

Hattie, with the blood streaming from the wound in her head, managed to reach the neighbor's house, told her story and then fainted. After she had been put to bed, the neighbor, calling for help, went to the Stone house. There the evidence of the butchery was discovered. The only person in the house who was able to speak, was Flora Stone, aged 16, and she was so badly frightened that she could tell nothing about the murder, except that the man who committed it wore a mask over his face.

The crime is a mystery. There is no possible motive for the murders as far as can be learned. Certainly the murderer was not bent on robbery, for in a bureau drawer in Mr. Stone's room were two gold watches and some money and nothing had been taken apparently.

The sheriff of Summit county was called to the scene of the murder early in the morning and with a posse of men he has been searching ever since for clues to the murderer. Nothing has been discovered. One man has been found who says he saw a buggy pass his house late Saturday night, going in the direction of the Stone house, and the same horse is believed to have been found in the streets of Kent, a few miles east of Tallmadge, yesterday morning. Ira Stillson, the hired man, and Emma and Hattie Stone have not yet recovered consciousness, and it is feared that Stillson at least will die, while the chances for the recovery of the two girls are very small.

RUSHED DOWN THE MOUNTAIN.

A Huge Rock Crashes Into a House and Kills Three People.

HINTON, W. Va., March 30.—Jim and Frank Tiltman and Lucy Law were instantly killed by a rock crashing through the house where they were stopping at a station 40 miles west of here, yesterday morning. Two other members of the family were seriously injured.

The house was situated at the foot of the mountain on the banks of the New river. An enormous ledge of rocks broke loose on the mountain side, passing over cove ovens, tearing up the track of the Chesapeake and Ohio railroad, and breaking through the house with the

above results. Henry Law, one of the occupants who escaped, had the presence of mind to rush out and flag an east-bound express train which was just due, and would have otherwise been wrecked on the rocks.

FORECAST OF CONGRESS.

What Will Probably Be Done in the Senate and House This Week.

WASHINGTON, March 30.—The present arrangement in the senate is to dispose of the bill providing for a settlement of the accounts between the state of Arkansas and the United States the first thing this week. It is doubtful, however, whether further time will be given the bill if it is not out of the way when the adjournment hour is reached tonight. It is expected that the postoffice appropriation bill will be reported from the appropriations committee during the day, and if it should be the disposition is that it will be taken up in the senate Tuesday and passed as soon as possible.

Senator Mitchell says that he will ask the senate to proceed with the consideration of the Dupont election case after today, providing appropriation bills do not stand in the way. Senator George already has given notice of a speech on this question and will be heard among others when the question is again taken up.

There probably will be no prolonged debate over the postoffice bill unless upon the fast mail subsidies and it will, in all likelihood be disposed of in two or three days time. The appropriations committee hope to have the Indian and Naval appropriations bill ready to report by the last of the week.

If there should be any time between the disposition of the postoffice bill and the reporting of these two bills the calendar affords plenty of material to work upon. Senator Cannon's resolution directing the opening of the Uncompahgre Indian reservation in Utah, which created such an animated debate a few days since, will become the unfinished business after the Arkansas bill. The foreign relations committee is anxious to get up the bill to prevent the extermination of the Alaskan seals as soon as possible and it may be pressed to the front during the week.

Program of the House.

WASHINGTON, March 30.—The sundry civil appropriation bill probably will consume the major portion of the time of the house this week and, by many, it is considered doubtful whether it will have been disposed of when the house adjourns next Saturday. The bill will precipitate the general opposition of the Democratic side because of the fact already pointed out that for all continuing work now under contract (river and harbor and public building work) the bill carries appropriations for only eight months. This is an entirely new departure and will bring up a general discussion of appropriations all along the line. In addition to this the bill carries \$29,000,000, over \$11,000,000 less than the estimates. In the odds and ends which make up the sundry civil bill members are personally interested, and where the committee has declined to recommend in accordance with the estimates the members interested can be relied upon to push their opposition to extremes.

It is the intention of Chairman Hitt of the foreign affairs committee to call up the conference report on the Cuban resolutions as soon as the sundry civil bill is out of the way. It is not thought that the adoption of the report will encounter much antagonism. If Mr. Hitt were so disposed he could call up the report any time and move its adoption under suspension of the rules, but it is more likely that the report will be held in abeyance and the sundry civil bill be given the right of way. The leaders of the house are bending all their efforts to hasten the appropriation bills in order to effect an early final adjournment. The river and harbor bill is the next appropriation bill in order after the sundry civil.

SECRET TREATY.

Details of the Arrangement Made Between Russia and China.

SAN FRANCISCO, March 30.—The North China Daily News prints what is said to be a translation of a secret treaty entered into between Russia and China. The treaty allows Russia to use any of the harbors along the coast of China, to mobilize fleets therein, buy coal and supplies, recruit forces in Chinese territory, buy horses, hire coolies, etc. Russia is to have the use of Port Arthur as a winter harbor, but if complications with other powers should arise Russia may use any other ports on the coast of Kang Su and Che Kiang. In return, Russia is to help China in case of war with other powers. Russia will be permitted to build a branch of the Siberian railway through Manchuria.

The line is to be controlled jointly for 15 years by China and Russia. At the end of that time China is to be allowed to purchase Russia's share of the branch road. In order to protect this road Russia will be allowed to hold one of the islands near Taitien Hwan. Russia will also be allowed to fortify points on Chinese territory opposite Vladivostok. If Russia and Japan should come to blows Russia is given permission to attack the western frontiers of Corea by way of the Yalu river. China will open her markets to the sale of Russian goods, and Russia will land several hundred officers to drill about 100,000 Chinese troops. This treaty is taken seriously by the Chinese papers, and is believed to be authentic.

Two attempts have recently been made by an unknown young man to kidnap Felix, the 8-year-old son of Ralph Modjeska, son of the actress, from the vicinity of the family's home, 1780 Wrightwood avenue, Chicago.

FIRE IN A TENEMENT

Four People Killed and Two Others Badly Hurt.

NARROW ESCAPE OF OTHERS.

Three of the Dead Were Suffocated in the Burning Building While the Fourth One Received Fatal Injuries When Jumping From a Third-Story Window—Firemen Hurt by a Falling Wall.

NEW YORK, March 30.—Four people were killed and two injured in a fire which started early Saturday morning in the 3-story business and tenement building, 374 Hudson street. The dead are:

Thomas Malloy, 23 years old, a fireman on the steamship St. Louis, suffocated.

Archibald Grogan, 35 years old, a waiter, suffocated.

Mary McMahon, single, 22 years old, suffocated.

Margaret Ryan, 60 years old, single, died on the way to the hospital from injuries received by jumping from a window.

The injured are:

Kate Higgins, 35 years old, leg fractured by falling.

Edward Walsh, 29 years old, foreman, internally hurt by falling from a ladder.

The burned building is one of a row of three-story structures owned by the Trinity church corporation. The ground floor is occupied by John H. Eggers, a dealer in confectioners' supplies and the two upper floors were occupied by several families as dwellings. The second floor, immediately over the confectioner's quarters was occupied for the most part by the family of Thomas McMahon. The McMans family consists of Mr. and Mrs. McMahon, two sons and two daughters. Twelve of the rooms on that floor are used by the family of Mr. McMahon, while three rooms in the rear portion of the floor were occupied by a Mr. and Mrs. McMahon and the young man Malloy the steamship fireman, who was boarding with them. On the third floor were a number of families.

It was in the apartments of the McMans family that the fire originated, so far as the police and firemen are able to determine. Nicholas McMahon, one of the sons, who slept in one of the back rooms of the suite, was awakened by the smell of smoke. He turned in an alarm and awakened the tenants. It was apparent that the lives of many were in danger, for the smoke had permeated every part of the house and the flames were burning briskly. All of the McManses were able to make their way down the stairs to the street before exit in that direction was cut off by the flames. Nicholas McMahon succeeded in helping several of the people out by leading them down the stairs through the blinding smoke in the hallway.

It was among the tenants on the top floor that the chief danger lay. Some of them ran to the roof and escaped in that direction, but others sought to get down by the stairway.

Miss Margaret Ryan and Miss Kate Higgins, one of the household, on being awakened, ran to the front windows on the third floor where they lived. The firemen had already arrived and ladders had been placed in the front side of the house to help to take out the tenants whose lives were in danger. On one of these ladders was foreman Walsh. As he was ascending, a burst of flame and smoke shot out of one of the windows and he was sent reeling to the street. As Walsh fell, Miss Ryan leaped from the window to the sidewalk and Miss Higgins, apparently partly overcome by the smoke in the rooms above fell to the ground at almost the same time.

An ambulance was sent for, but Miss Ryan was unconscious when placed in the conveyance and died before the hospital was reached. Walsh was taken to the hospital at the same time. He is badly, but probably not dangerously hurt.

After the flames had been extinguished, a search of the building was made and the bodies of Thomas Malloy, Archibald Grogan and Mary McMahon were found. All of the persons found dead had been suffocated before they were able to escape.

How the fire originated can not be determined until a thorough investigation is made. The property loss will not exceed \$15,000.

NO MEANS OF SUBSISTENCE.

Four Hundred Italians Will Be Deported Back to Italy.

NEW YORK, March 30.—At least 400 of the 2,000 Italian immigrants who were landed on Ellis island on Sunday and Monday will be deported, as they have not the means to subsist upon for 30 days. The law requires each immigrant to have at least \$30, or to have some relative in America before he is admitted.

Commissioner Sennar attributes the large migration of Italians to the Italian invasion of Abyssinia, to which most Italian peasants are averse. They do not wish to be drafted into the army and so to avoid becoming conscripts they emigrate. In many instances they have sold their household effects in order to raise their passage money. Of the vast number of Italian immigrants now on Ellis island but a very small proportion are ticketed through to railroad towns.

While the agent was at supper Saturday evening the Chicago and Erie depot at Decatur, Ind., was burglarized and all the money in the cash drawer taken. Several suspected tramps have been arrested. The amount stolen was small.

"It will not—it cannot—be denied that the Republicans of Kentucky are almost unanimously in favor of McKinley for second choice," remarks the Public Ledger. Judging from the recent conventions they are strongly in favor of the Ohioan for first choice.

At a Republican convention held at Dallas, Texas, last week, a split occurred over Reed and McKinley which ended in a riot. When order was restored it was found that seven persons had been stabbed, two of them fatally. Why didn't the Governor call out the troops?

No wonder the Governor called out the troops. It is now stated on good authority that Hon. Charles Blandford, the Republican Speaker of the lower house of the Kentucky General Assembly, said recently that he had two pistols in his desk and that while the ballot was being taken for Senator on the Saturday before adjournment he had his hands on them ready to wing his man if there had been trouble.

REV. WILLIAM BEST, late of Ripley, is meeting with success in his new field of work at Capron, Ill. The Belvidere Northwestern says: "He is the coming pulpit orator of the northwest." The Harvard (Ill.) Herald says: "He is the ideal and idol of all as a preacher, beloved as man and trusted as a friend. On next Sabbath morning he begins his series of sermons on Elijah. Like the Prophet of Fire he is somewhat fiery himself and it is confidently expected that by these discourses he will set spiritually ablaze Capron and all the country around." He will likely bring suit shortly against parties at Ripley who circulated damaging reports concerning him.

Marvelous Results.

From a letter written by Rev. J. G. Underman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at J. James Wood's drug store. Regular size 50c and \$1.

Spring Medicine

Your blood in Spring is almost certain to be full of impurities—the accumulation of the winter months. Bad ventilation of sleeping rooms, impure air in dwellings, factories and shops, over-eating, heavy, improper foods, failure of the kidneys and liver properly to do extra work thus thrust upon them, are the prime causes of this condition. It is of the utmost importance that you

Purify Your Blood

Now, as when warmer weather comes and the tonic effect of cold bracing air is gone, your weak, thin, impure blood will not furnish necessary strength. That tired feeling, loss of appetite, will open the way for serious disease, ruined health, or breaking out of humors and impurities. To make pure, rich, red blood Hood's Sarsaparilla stands unequalled. Thousands testify to its merits. Millions take it as their Spring Medicine. Get Hood's, because

Our Easter Offering!

Beginning on Monday and continuing throughout the week, we offer the following inducements to CASH buyers:

A Picture.—Do you realize, Madam, the charm of a new one, after the chaos of house-cleaning? Of course you do, and you are going to let us give it to you. A pretty baby face, delicately colored and framed in white enamel. We will sell you, next week, a pair of handsome Nottingham Lace Curtains, three and a half yards long, fifty-four inches wide, edges all taped, for \$1.25, and give you, with each pair purchased, the pretty picture above described. Should your taste demand a more expensive curtain we can meet it with qualities at \$1.50, \$1.75, \$2, \$2.50 up to \$7.50, and our gift will be just as pretty with the high priced as the low priced curtain. Don't you think you would like to be convinced how much value a \$1.25 can hold?

A Belt or Shirt Waist set. Your choice with any Dress Pattern, wool or silk, next week. The belts are Persian designs, silver or gilt buckles; waist sets are gilt, silver, pearl or jet, comprising collar button, three studs and pair link cuff-buttons. Whichever you prefer is yours for asking when you buy a dress. You will not believe how easy your spring gown can be selected until you see our tempting stock. It is too full to list; will only say the price starts at 25 cents. For that in silks you will find the pretty wash fabrics from Japan, in wool fancy Scotch novelty, splendid imitations of dollar goods; 25 cents but begins the list—it would be endless if we enumerated all the beauties at ascending prices, which reach \$1.50.

BETTYS VERSUS BETTYS.

Sequel to a Sensational Elopement
Wronged Husband Again
Worsted.

[Cincinnati Enquirer.]

Judge Charles J. Helm rendered an elaborate and novel decision in the divorce suit of S. H. Bettys against Lucy Bettys in the Campbell County Circuit Court Friday. He refused to grant the plaintiff a divorce, but annulled the marriage upon a cross-petition filed by the defendant. The parties are quite prominent in Campbell County and were married April 27, 1886. In the decision Judge Helm says:

"The defendant eloped with C. W. Sparks in September, 1891, and went abroad with him, remaining with him for four months. She returned to the plaintiff, 1892. He took her back, and they lived together until August, 1894, when plaintiff left her because, he says, he had become convinced that she had again become unfaithful to him. The plaintiff relies upon the defendant's act of adultery which occurred before he took her back. The statute is so clear and unequivocal that it leaves no room for argument. The reconciliation takes away the right of divorce.

"Plaintiff also charges the defendant with adultery since he took her back. Unquestionably a woman who has once fallen must be most circumspect in her conduct, and what might be passed over in one who has always been pure, will in the other be viewed with suspicion. Having this in mind, the court fails to find proof of misconduct on the part of the defendant. Culbertson, the co-respondent, was an inmate of the Bettys house, if not at the invitation, with the consent of the plaintiff. He seemed to forget that he owed the woman his protection. He deliberately leaves her evening after evening in the company of Culbertson, and then, by his own counsel, would urge on the court that because of her past the court must conclude that, there being opportunity, she embraced it and committed the fault.

"The conduct of the plaintiff in this case has, to say the least, not been that of a self-respecting man. He allows his wife to retain \$500 of the money given her by her paramour; not only this, but borrows \$250 of it from her. Without another woman in his household he leaves her with another man evening after evening, retiring early to his bed. He was a school teacher, and therefore not an uneducated man, but one who must be held to fully know his duty toward a woman who had fallen, and whom he agreed to take back and help to lead a pure life."

In annulling the marriage Judge Helm gave the defendant \$1,000 alimony and adjudged that the plaintiff pay all costs in the case, \$200 of which is for the defendant's attorneys; Mrs. Bettys, in her cross petition, alleged abandonment and failure to provide.

The parties to the above suit formerly lived at Mt. Olivet. Bettys is the individual who drew a snug little fortune out of the Louisiana Lottery, but the coveted money instead of bringing him happiness has brought him only misfortune and misery. The sad story of this sensational drama involving the couple named and Sparks and others living in Robertson is familiar to our readers.

THE LATE HENRY P. LEWIS.

The Remains Taken to Lexington
This Morning For Interment.

The remains of the late Henry P. Lewis were taken to Lexington on the early train this morning for interment.

The L. and N. Railway Company in whose service deceased had labored so faithfully for many years, furnished a private coach for the occasion, to accommodate the relatives and the friends who went up to attend the funeral. The services were held at the First Baptist Church at Lexington at 10 o'clock this morning and were conducted by Rev. W. H. Felix.

Besides the family, the following were among those who were present from this city: Rev. I. P. Trotter, Mr. B. F. Clift, Mr. Vas Hannek, Mrs. W. W. Watkins, Mrs. George Burrows, Mrs. James Hendrixson, Mr. and Mrs. John Dunn, Mrs. B. P. McClanahan, Mrs. William Pogue, Mrs. Frank Armstrong, Miss Fannie Allender and M. F. Marsh.

Conductor Hearne and Baggage-Master Dunn, of the Maysville and Lexington train, and Messrs. Frank Smith, Charles Mower, John Butler and Wm. Slade acted as pall-bearers. Messrs. Dunn, Smith, Mower, Butler and Slade were formerly firemen for the deceased, but have been promoted and are now in the service of the company as engineers.

Deceased was a member of the Brotherhood of Engineers and his family will receive \$3,000 from the order.

WITH A PISTOL.

Mr. John Willett Shoots Himself Inflicting a Dangerous Wound.

Mr. John Willett, of Helena, procured a pistol from his home with Dr. Brough sometime Sunday morning and went to the home of Mr. W. H. Robb, who is a relative by marriage, and asked to lie down. He partially undressed himself and getting on the bed placed a .38 calibre Smith and Weston pistol to his bare breast and fired, the ball entering under the left nipple and passing through the breast and coming out under the left shoulder blade.

Medical aid was immediately called in and the news this morning is to the effect that he is resting easy. The wound is necessarily a dangerous one.

Mr. Willett is about forty-five years old with a wife and children. He has been in poor health for some time, and suffering from nervous and mental prostration.

GOVERNOR BRADLEY vetoed the bill allowing Mrs. Mary C. Bennett to draw the salary of her husband, the late Chief Justice Caswell Bennett, from August, 1894, when he died, to December 31st, 1894. He says the bill was unconstitutional.

THE Republican conventions in Bourbon and Shelby Counties Saturday were favorable to Bradley's Presidential boom. In Barren County Dr. Hunter took a hand, and the convention instructed for McKinley. Hunter made a speech, but never mentioned Bradley.

CASTORIA

for Infants and Children.

MOTHERS, Do You Know

that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castoria are furnished for 35 cents, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

The fac-simile signature of *Dr. H. Pitcher* is on every wrapper.

CHICAGO TRUNK MYSTERY.

Three Cases of Men Who Have Disappeared Near Salt Lake City Reported.

Chicago, March 30.—The mystery of the body found in the box by Carl Haas and Philip Gross, at Austin, Thursday afternoon, yet remains unsolved. Three cases of men who have disappeared in the west, in or near Salt Lake City, have been reported to the authorities, but there seems to be no way of determining the identity of the body. The cases are:

Oliver Pike, disappeared at Seattle, Wash., three years ago.

An Englishman employed on a ranch near Salt Lake City, three years ago.

Joanes Prosper Chazal, disappeared at Salt Lake City, three years ago.

If the friends of either the unknown Englishman or Oliver Pike succeed in identifying the body at the morgue by a scrap of hair and a set of teeth, they will accomplish wonders, for these are the only things they have to go by. The rest of the body is past identification.

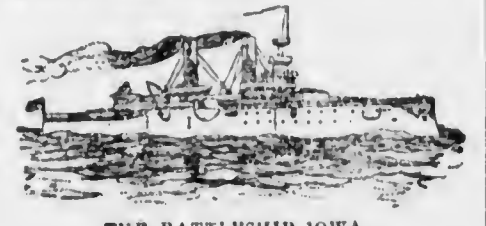

Mrs. Theodore Mosher told Deputy Coroner McNally the story of Oliver Pike's disappearance. She said he was at Seattle, Wash., at the time. His mother is Mrs. William Hawes, and lives at Fayette, Fulton county, O. Mrs. Mosher is a close friend of the family and had known young Pike for a number of years. She said also the description of the body, as regards size, weight, hair, teeth and age, were those of Pike. He had been injured in life and wore a truss. He always had plenty of money, she said.

The inquest at the morgue Saturday afternoon resulted in nothing. After considerable testimony had been heard it was adjourned to Tuesday afternoon at 2 o'clock.

IOWA LAUNCHED.

Uncle Sam's Most Powerful Fighting Vessel Now Afloat.

PHILADELPHIA, March 30.—The battleship Iowa was launched from Cramp's ship yard at 1:14 o'clock Saturday afternoon. When she slipped from her cradle and dipped her virgin keel in the waters of the Delaware, Uncle Sam's new navy received the most powerful fighting vessel afloat.

THE BATTLESHIP IOWA.

There has never been a more successful launch. Federal, state and municipal governments were represented by high dignitaries. Miss Mary Lord Drake, daughter of the governor of Iowa, named the big naval baby. The bottle she broke on its great iron prow contained champagne, and not water as some prohibitions wanted used.

Officially the Iowa is known as "Seagoing Battleship No. 1," distinguishing her from coast-line battleships like the Indiana, Massachusetts and Oregon. Virtually she is a floating fort—a terrific engine of destruction. She is 360 feet long, 72 feet 2 inches wide, and when roaming the seas will be sunk about 25 feet in the water. This means that 11,410 tons of water will have to move when she decides to go on an excursion, as that amount is her reckoned displacement. Here are some of her other statistics: Normal coal supply, 625 tons; total coal capacity, bunkers filled, 1,780 tons; maximum indicated horsepower contract, 11,000; speed in knots contract, 16; complement of officers and crew, 490.

In the matter of giving punishment the Iowa will surely be a terror. At each end of the main deck rise great ro-

volving turrets, made of 14-inch armor plates. These turrets are supported, and revolve inside a barbettes base of 15-inch armor, and in each one is located a pair of rifled guns with a bore 12 inches in diameter. These are the great guns, and can hurl accurately steel pointed shot weighing nearly 1,000 pounds a matter of seven miles or so.

These guns consume at each shot about 300 pounds of powder, of a kind that looks like huge prismatic lumps of egg coal. They are fired by electricity, and so nice is the mechanism by which they are controlled that they may be almost as readily aimed as a sporting rifle. These guns can be trained over either side, and the forward ones dead ahead, or the after pair dead aft, thus sweeping the sea in any direction.

The deckhouse, as it might be called, of the Iowa is really a heavily armored fortress, and at each of its four corners are barbettes of 8-inch armor, on which turn the turrets, 5 1/2 inches thick. In each of these turrets is a pair of guns of eight inches diameter, a type conceded to be about the most effective kind and size of guns made. They hurl lighter projectiles than the great guns, but with almost as much force, and are easily handled and quickly fired.

Incidentally the ship carries six 4-inch rifles, no mean guns, by the way, in a close light, and 22 rapid-fire and machine guns. The great beam of the ship, which must give her stability in any kind of weather, will enable her to fight this tremendous battery, entire, in any sort of a sea.

The Iowa contract was awarded to the Cramps on Feb. 11, 1893, the price being \$3,010,000. She is guaranteed to speed 16 knots an hour, and for each quarter knot additional the builders will get \$50,000.

Shot on the Highway.

WASHINGTON, Ind., March 30.—Frank Bowers and Mason Cochran, two farmers living three miles north of here, quarreled the other day over an old grudge. Saturday afternoon, about 4 o'clock, the two men met in the road, and without a word of warning, Cochran emptied both barrels of a shotgun into Bowers' abdomen, inflicting a probably fatal wound. Cochran was surrounded at his house by neighbors and guarded with shotguns until Sheriff Lending arrived to make the arrest.

Cleveland Catastrophe.

CLEVELAND, March 30.—During a windstorm late Saturday night the wall of a building recently destroyed by fire fell upon the house of H. A. Vaughn at 745 Cedar avenue. Tons of brick crashed through the roof, carrying down a portion of the upper floor. Mrs. F. O. Bradford of Olstead Falls, O., sister of Mrs. Vaughn, was killed in her bed, Miss Emma Dietrichs, a domestic, was badly injured.

Preparing For The Trial.

CINCINNATI, March 30.—All who are interested in the prosecution of the Fort Thomas murder case are busy getting the evidence in shape for the trial of Jackson, which will begin on Tuesday, April 7. Will Wood, it is understood, has agreed to tell all he knows, and will be an important witness for the state. The lawyers for the defense are not idle, either, but are preparing to fight the cases in the courts to the utmost. It is claimed that they contemplate making the serious charge against the prosecution that it has been rehearsing with its witnesses the testimony they are to give at the trials, and will have those witnesses' testimony ruled out.

Improving Ohio Harbors.

WASHINGTON, March 30.—The secretary of war has sent to the house an estimate for the further improvement of Conneaut harbor, Ohio, at a total further cost of \$580,000; also an estimate for the necessary repairs at Cleveland harbor.

The Inimitable Max O'Rell.

Max O'Rell fairly delighted an audience of many hundreds at the opera house last night with his dissertation on "Her Royal Highness, Woman." There was never a more thoroughly entertaining and interesting lecture heard in any hall in this city. If the standard is to be the account of appreciation manifested in what was said. The speaker has a most charming way of putting things, and when he has said a thing there is immediately kindled a bond of sympathy between himself and his hearers as to the sentiment involved that stimulates an anxiety for what the next utterance will be. The speaker began at the top round of the social ladder and descended. He talked "swell set" until his audience fairly split its sides with laughter at the quaint revelations in the speaker's words. From his preliminary remarks to the close, interest in the speaker's words never waned, and it was with regret that the entertained saw their entertainer nuke his retiring bow.

The subject was one from which the speaker seemed to draw fresh inspiration as each thought was put forth in words. The lecture throughout was replete with the most sparkling wit and pleasing anecdote, and was greatly enjoyed by all.—The Commercial-Appeal, Memphis, Tenn., March 2, 1895.

Hear this inimitable humorist at the opera house next Wednesday night. Admission only 50 cents. Reserved seats without extra charge at Nelson's.

CENTURIES ago, people used to fear what they called the pestilence, "Black Death" was the most terrible thing in the world to them. They feared it as people now fear the cholera and yellow fever. And yet there is a thing that causes more misery and more deaths than any of these. It is so common that nine-tenths of all the sickness in the world is traceable to it. It is merely that simple, common thing, constipation. It makes people listless, causes dizziness, headaches, loss of appetite, loss of sleep, foul breath and distress after eating. The little help needed is furnished by Dr. Pierce's Pleasant Pellets. One pill is a gentle laxative and two a mild cathartic. Once used, always in favor. If you are careless enough to let an unscrupulous druggist sell you something on which he makes more money, it is your own fault if you do not get well. Be sure and get Dr. Pierce's Pleasant Pellets.

Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

TIMOTHY O'CONNELL, of Wadonia, has been granted a renewal of pension.

SPEAKING OF THE DEFECTION OF CASHIER

Shipp and assistant Stone, of the Midway Bank, the Lexington Herald says: "One pathetic case is that of Miss Kerchival, an elderly unmarried woman, for whom Charles Stone was agent. All the money she possessed in the world \$1,000, was entrusted to him, and now she is penniless. On account of the trusts estates involved, there will be endless litigation, and the Verailles and Midway lawyers already have their hands full."

WEAK MEN

CURED AS IF BY MAGIC.
Victims of Lost Manhood should read at once for a book that explains how full manly vigor is easily, quickly and permanently restored. No man suffering from weakness can afford to ignore this timely advice. Book tells how full strength, development and tone are imparted to every portion of the body. Sent with positive proofs (sealed) free to any man on application.
ERIE MEDICAL CO., BUFFALO, N.Y.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be recommended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
